## Google Cloud Deloitte.

## Agentic Al & Agentspace:

Google Agentspace unlocks enterprise expertise for enterprises with agents that bring together Gemini's advanced reasoning, Google-quality search, and all enterprise data

Deloitte has a unique advantage with a deep understanding of Google agentic AI as an early user along with a strong track record of delivering business benefits to its clients

- In-depth knowledge of Google's connector framework
- Expertise in core strategic advisory and product development related to engineering, model testing, deployment, impact analysis, and more
- First enterprise to access and test Agent Framework; testing Agentspace for Google

### **Google Agentspace empowers enterprises with**

**Information discovery** across the enterprise

**Expert agents** to automate your business functions

New ways to interact and engage with your enterprise data using NotebookLM

#### Search

Help your employees find what they need at the right time and answer questions.

Search that understands your business.

Search for content across enterprise systems and internet.

What are the " competitive " differentiators for our product?"

> I have a late fee in my Concur account, what do I do?"

#### **Summarization**

Condense and summarize your enterprise knowledge.

Quickly prepare for a meetings by generating summaries across docs, emails and external sources to highlight takeaways, action items, and insights.

Give me a " summary of Project X"

What does this code do?"

Create new content based on existing enterprise knowledge and internet data.

**Product** descriptions.

**Create** content for blog posts.

**Email from** content.

Write a marketing plan for Project X"

Create an image of a 🕌 dog playing that works with the blog content

#### Actions

Interact with preconfigured or custom agents that take actions and streamline workflows.

Campaign creation.

Create meetings.

Update data in third party systems.

Take this new PRD and create sales material on differentiation"

Assign this Jira ticket to X"

#### **Google Agentic Stack**

#### **Agentspace**

Platform to build enterprise workflows with agents for information discovery and performing actions

#### **Vertex Agent Framework**

Framework and templates to build and deploy multi-agent systems

#### **Specialized Agents**

Ready to deploy agents such as Multimodal Live API, Jules, Document parsing agents etc.

#### **Vertex Al Agent Builder**

Build and manage highly custom agents **OOTB** and Custom Agents and many more

### Making it real: We have an extensive collection of 20+ agents in our GCP Agent Fleet today

While numerous autonomous Al agents are possible in each domain, **Deloitte is prioritizing areas** where the market is showing interest.

With **Agent Fleet**, we are looking to leverage our existing capabilities and build new ones to introduce a variety of autonomous Gen Al agents

#### **Business Functionfocused Agents**

Targeted at business functions to simplify existing processes

#### Industryspecific Agents

Aimed at industry specific functionalities to expand capabilities and build new solutions

#### **Technical Agents**

Focused on general generative AI enablement to support enterprise adoption

#### Deloitte can help integrate Agentspace into your business to transform your enterprise with Al agents
