

## FinOps at your Organization

Are you new to Cloud Financial Management or FinOps and have been wondering if it is something for your organization? If your answer is yes, then this course can help you to understand what FinOps is all about.

The Deloitte SAM Academy provides a comprehensive training program for all key activities relating to Software Asset and License Management (SAM). The content of the SAM Academy has evolved from Deloitte's long-term SAM experience in diverse customer projects and covers the entire software lifecycle. We offer impartial guidance and training independent of any software vendor or tool provider.

FinOps is a culture, created to help organizations manage their cloud costs, where everyone takes ownership of their cloud usage supported by best practices, where teams like Cloud Center of Excellence and Finance work together to enable faster delivery, while at the same time gaining more financial and operational control. In this training we will guide you to get a better understanding on the monetary and budgetary difficulties of cloud and how to manage your cloud spend.

- I. Relevance of the cloud and FinOps**
  - The challenges within the journey to the cloud
  - FinOps Phases and their key functions
  - Core Principles of FinOps
- II. Optimizing cloud costs for your organization**
  - Building and Coordinating a FinOps Team
  - Capabilities within the FinOps architecture
  - FinOps Activities
  - Maturity Model
  - Importance of a cloud bill
- III. FinOps Life Cycle**
  - Phases to optimal cloud usage
  - How a successful FinOps looks like
- IV. Real Life Examples and Exercises of Application of FinOps**

The training addresses current and future FinOps practitioners, SAM/ITAM employees and the CCoE in your organization. Also the training is set up for DevOps Engineers, to understand the costs of what they build in the cloud and for Financial Analysts to obtain a knowledge base for communication with the cloud team.
