DocQMiner

The better and faster way to get
data from unstructured documents

We are led by one purpose: to make an impact that matters

Our goal is to help organisations manage daily processes efficiently and effectively. Deloitte is a trusted and recognised global advisor for entities across the globe.

Unlock Your Data Unstructured Documents

Most information today is still locked up in unstructured documents, preventing organisations from leveraging significant insights to gain a competitive advantage.

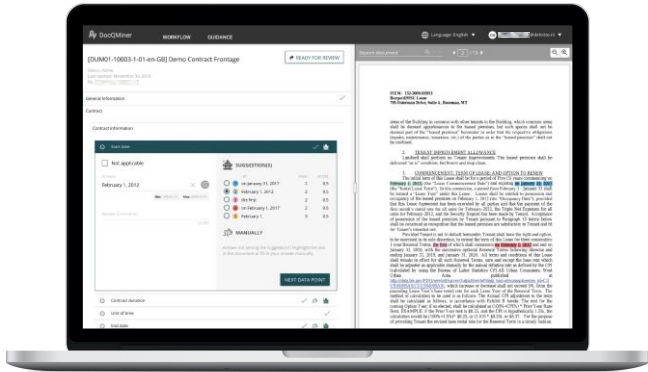

Increased pressure to reduce operational costs often leads to compromising on the availability of information for decision making.

What if there was a way to overcome this compromise and still achieve reduced operational costs? What if an organisation could unlock significant sources of information quickly and efficiently?

DocQMiner enables the turning of documents into actionable data in a faster and more accurate manner. By combining human and artificial intelligence, DocQMiner transforms unstructured information to structured output that can be directly used in downstream solutions.

Documents are analysed quickly by using suggestions to directly jump to relevant words. Initial documents are analysed by human experts feeds into a learning cycle to provide better and more accurate suggestions

DocQMiner supports more than 140 languages and is accurate even if the document type or layout is different. It contains a built-in workflow to streamline processing volumes of documents that makes it easily scalable for use to address business needs.

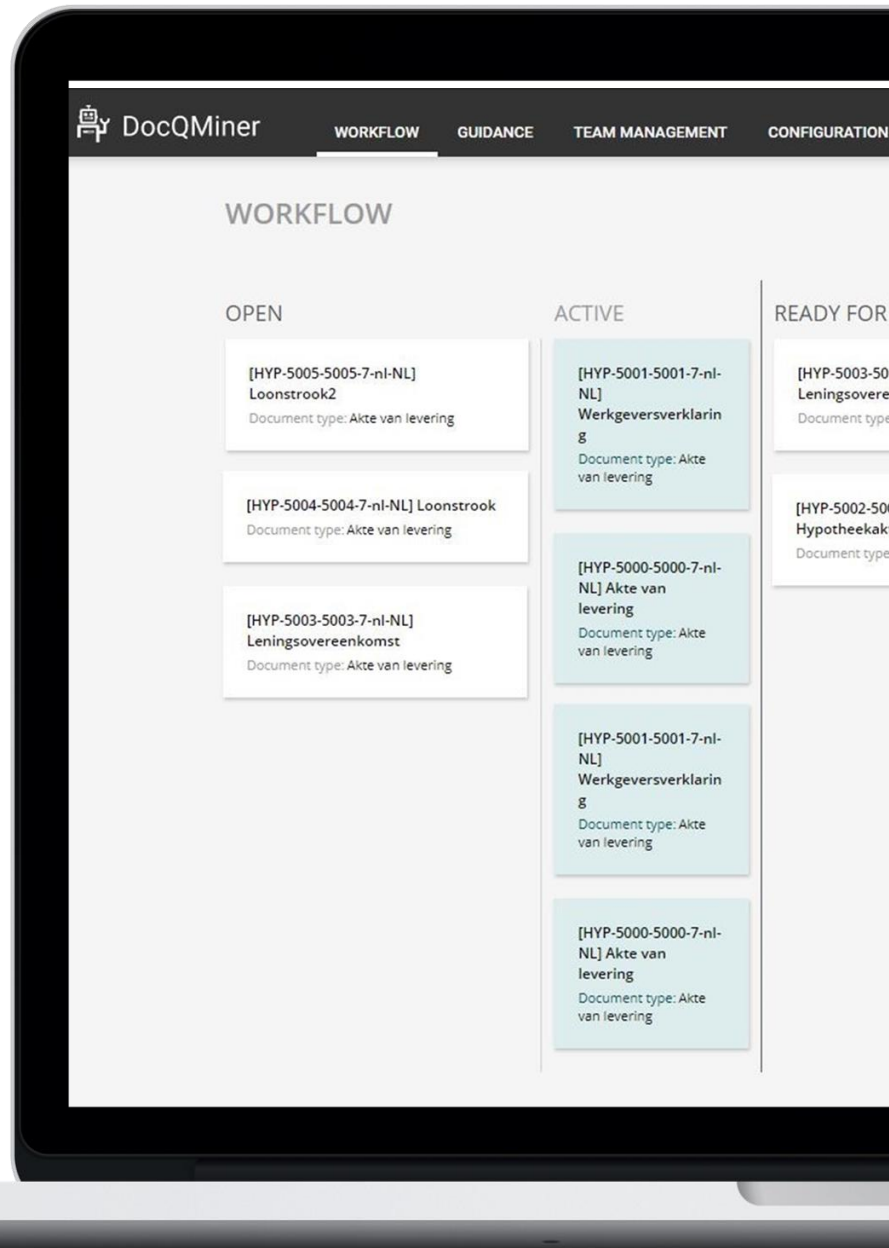

Extract actionable, structured data from documents and contracts. Fast. Easy. Reliable.
