AI Leaders Programme

Welcome

At Deloitte, we have seen first-hand how rapidly the role of Data and Artificial Intelligence (AI) Leaders is evolving. This has been further fuelled by an insatiable demand for AI-enabled innovation with heightened customer and business expectations. AI, and particularly GenAI, offers opportunities to organisations to enhance operational efficiency, improve end-user experiences, and revolutionise processes. However, how can organisations ensure they are investing their time and resources effectively to achieve maximum impact?

As an AI Leader, you are likely familiar with this question. You probably answer many queries about the impact, risks, and possibilities of these technologies, along with which areas could be targeted first, who is ready for it, and where it could bring the most value.

To support you in your role, we are excited to invite you to Deloitte's bespoke AI Leaders Programme, aimed at Data and AI Leaders across industries. This document will provide an overview of what to expect and what you will gain from the programme.

We look forward to welcoming you and joining you on your journey.

Overview: what to expect

Deloitte's AI Leaders Programme will support you to accelerate and succeed in this ever-changing environment and technical landscape. It will help you to identify and focus on priority areas and platforms, leverage knowledge and insights from a new network of peers and enable you to achieve both personal and organisational goals.

The programme aims to equip you with the right tools for leadership and C-suite discussions, as well as a network of peers in similar positions to share experiences with. These resources will provide a solid foundation for success in your role.

As a participant of the programme, you can expect to expand your network of AI Leaders from other industries; develop insights on industry moves in this space, especially in the areas of governance, trust and ethics; learn how technology hyperscalers are adapting their platforms and tools to support and propel organisations forward to drive value; and leverage insights to further your impact within your organisation.

What you will gain

Driving business value through AI

A unique opportunity to develop insights into stakeholder expectations and the role of an AI Leader. Access to case studies of how organisations and similar leaders are navigating the breadth of their responsibilities, while driving business value.

Access to AI Hyperscalers and Industry Leaders

Discover ideas, trends, and innovations delivered by experts across the world's leading AI Hyperscalers and Industry Leaders. This will also include panels, demos, latest breakthroughs and more (incl. position, lessons learned and approaches to industrialising solutions).

Future of Work

Learn how AI and GenAI is impacting the workforce and various job types. Identify which human capabilities can or should be augmented, and what existing and new skillsets are required to meet the demands of the organisation and drive value.

'AI for Good' (i.e. Trustworthy AI)

Learn how to develop ethical safeguards through our 'Trustworthy AI' framework, the developments of the regulatory landscape, and how your role can support reimagining business models that build enduring value, and inform a vision of the future—safely, securely and responsibly.

Peer learning and networking

A unique opportunity to grow your network by engaging with peers across different industries to hear about their AI adoption journeys, challenges, successes, best practices and their insights. Learn about the impact that AI is having on different sectors

Your journey

TWO DAYS IN PERSON SESSION

Welcome, curriculum overview and peer group introductions.

Dedicated sessions on 'Driving business value through AI'.

Dedicated sessions with Hyperscalers and Industry Leaders.

In person session will be held at our Deloitte Dublin Campus on Earlsfort Terrace.
