The challenge of corporate compliance

The introduction of Sarbanes-Oxley and ongoing changes in the legal environment brought about an unprecedented need for companies to implement rigorous internal controls and ensure effective management of legal entities on a global basis. This has become one of the major challenges facing multinational corporations and an onerous responsibility for their directors.

Furthermore, company directors are under increasing pressure of changing legislative requirements governing the administration of their companies and keeping up-to-date and compliant is more complex and time-consuming than ever before.

Corporate Secretarial Services can help guide you through the challenges and changes, easing your administrative burden and allowing you to focus on running your business..

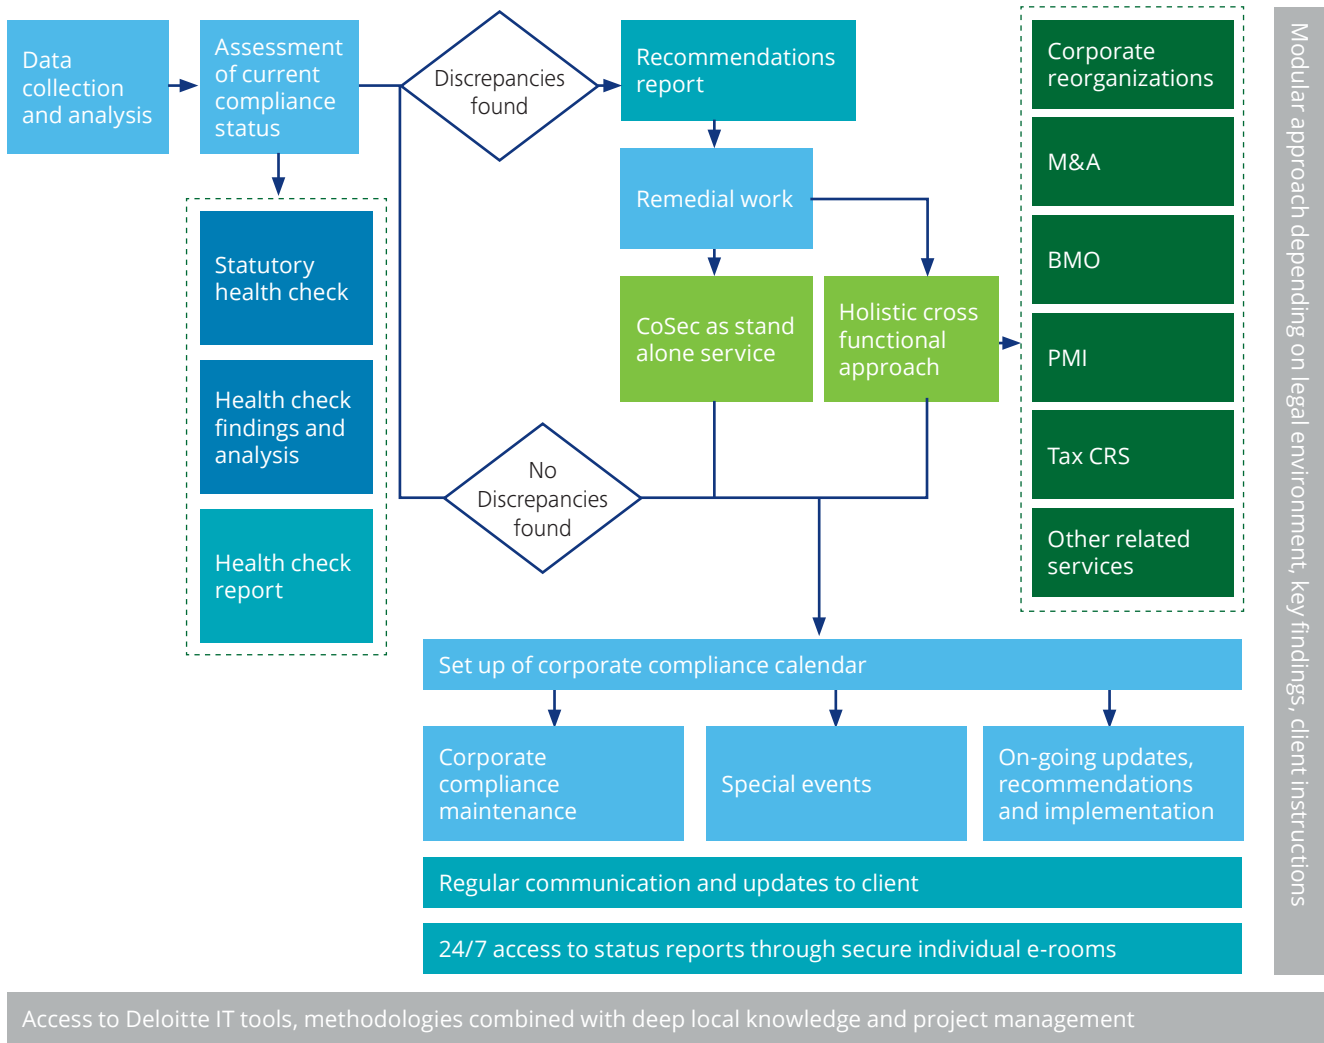

Failure to comply with statutory obligations can have potentially severe legal consequences for the company, its shareholders and directors.
