

## Managed Extended Detection & Response (MXDR) by Deloitte

### Embed 24/7 vigilance and run with confidence

Safeguard your enterprise with MXDR by Deloitte as your fully managed cybersecurity solution. Let Deloitte operate your security with a powerful combination of market-leading Software-as-a-Service (SaaS)-based threat hunting, detection, response and remediation capabilities; proven processes; and our experienced specialists, trained to pursue threats before they become attacks and respond to minimize business impact.

### The Challenge

Organizations are facing increasingly swift, sophisticated cyberattacks across cloud, operational technology (OT), and Internet of Things (IoT) assets. Securing your organization against these threats, modernizing detect and respond capabilities, and solving historical issues of scalability are crucial. However, selecting, implementing, and integrating the right mix of security solutions over a growing attack surface is difficult. And finding and retaining scarce cybersecurity talent and training to stay continuously abreast of the latest security innovations and threats – while reducing cost and complexity – are big challenges.

### Outsmart Adversaries. Deliver Resiliency.

Embed continuous advantage across your operating models from day one.

## MXDR by Deloitte in Action.

After enduring a double ransomware attack that brought back-office operations to a halt, a large US restaurant franchisee wanted to prevent such a disruption from happening again without having to make large internal cyber investments. MXDR by Deloitte provided the right fit, allowing the company to take advantage of a fully SaaS-based approach for incident detection and response. With a more centralized cyber solution delivered through a Deloitte-managed cloud environment, the company eliminated the need to create a new security operations center — while receiving the advantages of cloud-native capabilities with continual innovations and updates, monitoring, proactive hunting, response, and remediation.
