

Moving to the cloud can be daunting. *How can you plan for success?*

Accelerate your transformation journey with Deloitte's **Move to the Oracle Cloud Lab** - a hands-on workshop for **CFOs, CIOs** and other senior leaders - we guide you through every step of your unique journey to harness the full potential of the **Oracle Cloud**. Gain command of your most pressing issues and align on a dynamic vision that sparks action - all in the span of a single day.

*Set the stage
for transformation*

Deloitte's **Move to the Oracle Cloud Lab** is a live, **one-day**, customizable, **interactive session** designed to help you **explore, prioritize, and mobilize** your **Oracle Cloud** enabled transformation journey. Teams begin the day with a host of different viewpoints and agendas. By the end, they leave with a shared set of goals and solid plans to achieve them.

EXPLORE

First, we explore: It starts with getting the right people in the room. We get into the issues and challenges, as a group, all together. We explore the **art of the possible** through **live demonstrations** of the **Oracle Cloud** and case studies.

PRIORITIZE

Then, we prioritize: Where should we focus our efforts? Where can the team achieve the biggest payoff? What will really make a difference? Together, we identify **opportunities for improvement**. We bring an "outside-in" perspective to challenge thinking and provide real, **practical examples** to support your goals.

MOBILIZE

Finally, we mobilize: Over the course of the day, we've harnessed a lot of ideas about how we can break through. Now it's time to activate those ideas. Participants identify their own solutions, supported by Deloitte leaders with practical perspectives. Every lab ends with a **high-level roadmap** and **action plan** designed to provide participants with a clear path forward.

What normally takes weeks is accomplished in one day.

More than a meeting

Deloitte's **Move to the Oracle Cloud Lab** provides expertise and lends a helping hand when planning your journey to the **Oracle Cloud**. Each Lab incorporates five key attributes, honed from years of experience working directly with CFOs, CIOs and other senior leaders, to reduce stress and set the stage for success.

RELEVANT SUBJECT MATTER SPECIALISTS

Deloitte has the reach and relationships to tap specialists with hands-on **Oracle Cloud** experience around the globe. We have utilized their expertise to develop the content for the Lab and will include them based on your needs.

EXPERIENCE-BASED CONTENT

The Lab relies on thousands of complex journeys to the cloud, including some of the most iconic deals, to guide the day's activities and prioritize your efforts.

IMMERSIVE METHODS AND EXERCISES

Expect exercises that draw from behavioural research, team dynamics, and our experiences to maximize Lab participation. We developed, sharpened, and tested inter-linked exercises to guide participants through the Lab journey. These intelligent designs enable us to create a safe and collaborative environment for colleagues to raise excitement for the journey.

EXPERIENCED FACILITATORS

It takes experience and discipline to make significant progress on a tough challenge in a single day. That's exactly what our facilitators bring to the Lab. We specialize in intervention, disruption, alignment, and consensus.

CONSCIOUSLY DESIGNED ENVIRONMENT

If you want new ideas and fresh thinking, it helps to have a space conducive to innovation. That's why Deloitte built a Lab concept with mobile panels, dynamic furniture configurations, and other state-of-the-art resources that can be utilized both in your company's own office space, Deloitte's customized lab space, or a neutral offsite location. We can conduct a lab anywhere based on your needs.

Contact us

Let's connect and discuss whether the **Move to the Oracle Cloud Lab** may be a well-suited match for your specific needs.
