

# Connect data with business value in ways you never imagined

Let Deloitte help unleash the potential of your Azure Analytics platform in the cloud.

As the world moves relentlessly to a “cloud first” approach, the ability to ingest, integrate, and harmonize data and drive insights from it in all of its different forms is becoming ever more important. To accomplish that: using an integrated, secure ecosystem at speed and scale is critical. Our Azure Analytics team can help transform your business into a cloud centric, insights driven organization. One that can make the most of the seamlessly integrated, end to end, elastic nature of Azure’s integration with the data, applications, and technology infrastructure you’re already familiar with and invested in.

## Deloitte’s Microsoft Technology Services capabilities can power your success.

Value-added, leading Analytics and AI offerings, underpinned by our experienced cloud infrastructure migration and modernisation capabilities, are augmented by Deloitte’s industry depth and extended business domain capabilities.

Natural integration with Microsoft products

### Power Platform, SQL Server, Dynamics, Microsoft 365 SharePoint and Azure

Our natural integration (for modernisation) with legacy SQL Server stores and with ongoing Power Platform, Dynamics (CRM and ERP), Microsoft 365 Synapse, Azure data bricks, SharePoint modernisation programs

Competitive positioning and adoption

### Industry and sector advantage

Deloitte’s depth and breadth of industry and sector experience focused on modernising your client and business impact first.

SAP modernisation based opportunity

### Data and analytics for enterprise

Deloitte’s data and analytics modernisation for SAP on Azure installs (data lake, data warehouse, warm/cold store) Leverage PaaS based data, analytics, and AI services with SAP for HANA on Azure to provide analytics modernisation

Industry leading IoT platform

### Data in motion for connected devices

Leverage Deloitte’s mature IoT and 5G toolkit integrated with Azure IoT Hub and IoT Central to provide accelerated device management and analytics at the edge and on cloud. Solution blueprints for accelerated delivery, fully managed IoT service.

## Deloitte’s analytics, business, industry, and technology transformation capabilities

We can help you realise value across four key drivers: data warehouse modernisation, business intelligence modernisation, data science and AI services, and data in motion analytics and workflow services. Most important, we can help you hit the ground running with rapid prototyping and rapid instancing in a matter of days – instead of weeks.

**Modernise appliances and data warehouses** to work on your Azure cloud enabled architecture. We can help you realise scalable, cost optimised integration and provisioning of enterprise data for analytics workloads as Azure Synapse evolves.

Design, develop, and deploy **solutions for combining data from multiple sources on the Azure cloud** to provide rich, powerful business intelligence. We drive enhanced self service and UX for better, faster decision making (SSAS, SSIS, Power BI).

**Transform data into actionable insights** using best in class machine learning and AI tools. We can help you access multivariate, multitype data at any scale to build and deploy custom machine learning models informing and putting decisions into action.

**Drive data in motion** from connected devices to gain insights you can transform into action using powerful real time applications and workflow scenarios, and achieve full digital twin operational integration.

Combine all of this with our world class **cybersecurity services** to help ensure you not only have access to valuable data driven insights but have secured the data all along the journey.

# Deloitte.

## A global leader in delivering Microsoft Technology Services

Our UK Deloitte Microsoft Technology Services Practice offers consistent, end-to-end capabilities on top of hybrid cloud solutions to help you translate the power, agility and speed of cloud to your business innovation and impact on a large-scale. We bring independent objectivity to our deep cloud skillset and to our extensive technology capabilities help you drive value quickly from your cloud investment.

### Innovation at your fingertips

At Deloitte, we can help your cloud investment drive value quickly by bringing the skills and experience necessary to harness and unleash the power of the cloud, and translating this into your desired business outcomes.

### Delivering impact

Deloitte builds on the technology you select and know, and integrates a portfolio of industry and domain specific tech capabilities, optimised to deploy on your cloud solution, to accelerate and amplify cloud's impact for your business.

### Reaching your full potential

Our advise, implement and operate capabilities are built on decades of experience with large scale transformations and implementations with tech organisations and complex technical landscapes. These decades of experience are trusted by clients to help them reach their full potential and modernize their futures.

### Recognised leader

For the most up-to-date list of our accolades, please visit the UK Deloitte Microsoft Technology Services Practice website.

(\*As Microsoft's Independent Auditor, Deloitte is not a Microsoft partner and does not participate in the partner program or hold partner program designations, such as competencies.)

## Deloitte Industry insights to help achieve what cloud makes possible

We apply our industry and business domain knowledge across six key sectors where Deloitte practitioners can drive particular advantage when a client has decided to use Microsoft's technologies:

### Consumer

Deloitte's services span technology, human capital and strategy and help enable manufacturing organisations to enhance real time supply chain as well as customer experience value.

### Energy, Resources & Industrials

Deloitte's specialists provide comprehensive, integrated solutions to all segments of sectors: oil, gas, and chemicals; power, utilities and renewables; and industrial products and construction.

### Financial Services

Deloitte is recognised as a leader in cloud professional services, and organisational and technology transformation to financial and insurance organisations.

### Government & Public Services

Deloitte's team brings decades of experience, fresh perspectives and extensive technology resources to help government agencies and educational institutions fulfil their missions.

### Life Sciences & Health Care

Deloitte provides strategies and comprehensive solutions to help organisations respond to the opportunities and challenges in today's ever evolving life sciences and health care industries.

### Technology, Media & Telecommunications

Deloitte's TMT practice has a wealth of experience in helping technology, media and entertainment, and telecom companies evaluate complex issues, develop fresh approaches to problems and implement practical solutions.

## Our integrated Microsoft technology consulting services

If Microsoft is your chosen cloud platform, Deloitte's UK Microsoft Technology Services Practice team brings the breadth of services and depth of resources that enable us to help you keep pace with change, regardless of your challenges and opportunities.

**Azure Hybrid Cloud**

Orchestrate your cloud journey from core to edge and everything in between

**App Modernisation and Migration**

Innovate, unlock value, and reduce operational costs

**Analytics and AI**

Transform your business into a cloud-centric, insights-driven organisation

**Intelligent Edge and IoT**

Engineer IoT and Edge computing platforms to streamline your business operations

**SAP on Azure**

Evolve your cloud infrastructure with Deloitte's ability to integrate Azure Cloud and SAP S/4HANA

**Business Applications**

Elevate human experiences and modernise every aspect of your business

**Digital Workplace**

Allow employees to work collaboratively and securely, anywhere, on any device

**Cybersecurity**

Protect essential business functions and address risk in an ever-changing threat landscape
