

Evolve to a kinetic enterprise with SAP S/4HANA®

Your business and market aren't static. Your ERP can't be, either.

The "built to last" approach is no longer sufficient to meet the current demands of rapidly changing markets and technology, nor is it sufficient for unpredictable future changes. Think instead of a "built to evolve" approach. If you have decided to implement or move SAP S/4HANA to the Azure cloud, Deloitte has the breadth and depth necessary to ensure that all your ERP-related technology and talent resources have flexibility, innovation and adaptability coded into every facet.

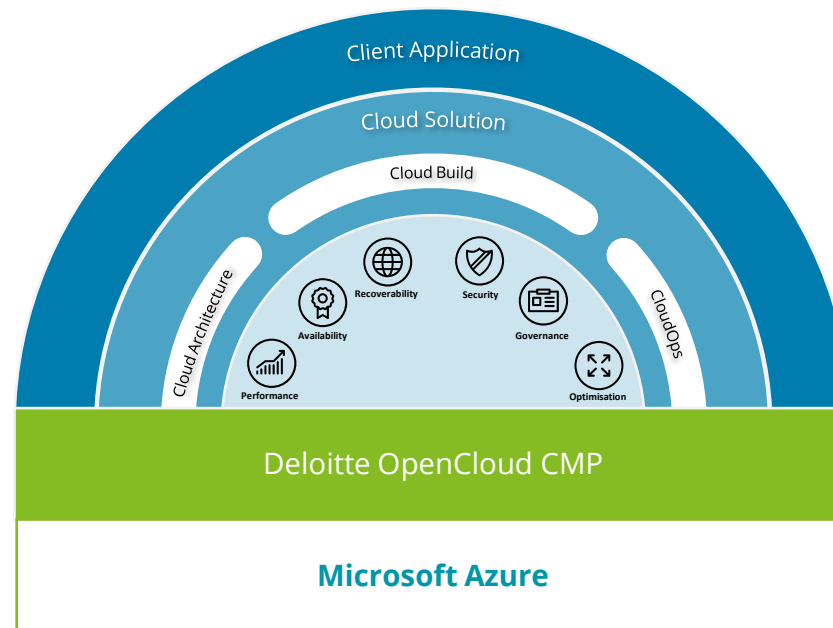

Becoming kinetic demands end-to-end capabilities

Find the way that's best for you with Deloitte Cloud Managed Services.

We recognise that our clients want to execute their cloud strategy as quickly as possible while maintaining a high standard of quality. They want to become more competitive, cost effective, secure, and agile. To address these common strategic requirements Deloitte CMS has built a portfolio of services, underpinned by our cloud management platform (CMP), to meet the individual needs of our clients wherever they are on their cloud journey. As our client's trusted partner, we help accelerate and deliver their cloud strategy, continually transforming and optimising our services.

- Design and build consulting services only
- Design, build and operate, leveraging open cloud (either on the SAP S/4HANA® Enterprise Cloud with SAP applications only environment, or on Deloitte Open Cloud with both SAP and non SAP applications)
- Fully managed, turnkey service; Deloitte has the capability to host on Azure, and provides the SAP S/4HANA application to you, the client

Supporting your journey to the cloud so you can focus on your business.

Innovation, impact and value realisation drive our approach.

Named as a leader for Public Cloud Infrastructure Professional and Managed Services by Gartner, Deloitte cloud managed services (CMS) helps clients architect, build, optimise and manage critical cloud workloads to support and accelerate innovation and business growth at every stage of the cloud journey.

We provide end-to-end solutions for running your operations on Microsoft Azure cloud. Our services incorporate infrastructure design, build, operations, automation, DevOps, service management, cybersecurity, optimisation, and compliance.

Deloitte.

A global leader in delivering Microsoft Technology Services

Our UK Deloitte Microsoft Technology Services Practice offers consistent, end-to-end capabilities on top of hybrid cloud solutions to help you translate the power, agility and speed of cloud to your business innovation and impact on a large-scale. We bring independent objectivity to our deep cloud skillset and to our extensive technology capabilities help you drive value quickly from your cloud investment.

Innovation at your fingertips

At Deloitte, we can help your cloud investment drive value quickly by bringing the skills and experience necessary to harness and unleash the power of the cloud, and translating this into your desired business outcomes.

Delivering impact

Deloitte builds on the technology you select and know, and integrates a portfolio of industry and domain specific tech capabilities, optimised to deploy on your cloud solution, to accelerate and amplify cloud's impact for your business.

Reaching your full potential

Our advise, implement and operate capabilities are built on decades of experience with large scale transformations and implementations with tech organisations and complex technical landscapes. These decades of experience are trusted by clients to help them reach their full potential and modernize their futures.

Recognised leader

For the most up-to-date list of our accolades, please visit the UK Deloitte Microsoft Technology Services Practice website.

(*As Microsoft's Independent Auditor, Deloitte is not a Microsoft partner and does not participate in the partner program or hold partner program designations, such as competencies.)

Deloitte Industry insights to help achieve what cloud makes possible

We apply our industry and business domain knowledge across six key sectors where Deloitte practitioners can drive particular advantage when a client decides to use Microsoft technologies:

Consumer

Deloitte's services span technology, human capital and strategy and help enable manufacturing organisations to enhance real time supply chain as well as customer experience value.

Energy, Resources & Industrials

Deloitte's specialists provide comprehensive, integrated solutions to all segments of sectors: oil, gas, and chemicals; power, utilities and renewables; and industrial products and construction.

Financial Services

Deloitte is recognised as a leader in cloud professional services, and organisational and technology transformation to financial and insurance organisations.

Government & Public Services

Deloitte's team brings decades of experience, fresh perspectives and extensive technology resources to help government agencies and educational institutions fulfil their missions.

Life Sciences & Health Care

Deloitte provides strategies and comprehensive solutions to help organisations respond to the opportunities and challenges in today's ever evolving life sciences and health care industries.

Technology, Media & Telecommunications

Deloitte's TMT practice has a wealth of experience in helping technology, media and entertainment, and telecom companies evaluate complex issues, develop fresh approaches to problems and implement practical solutions.

Our integrated Microsoft technology consulting services

If Microsoft is your chosen cloud platform, Deloitte's UK Microsoft Technology Services Practice team brings the breadth of services and depth of resources that enable us to help you keep pace with change, regardless of your challenges and opportunities.
