**Trusted advisor to the
blockchain ecosystem**

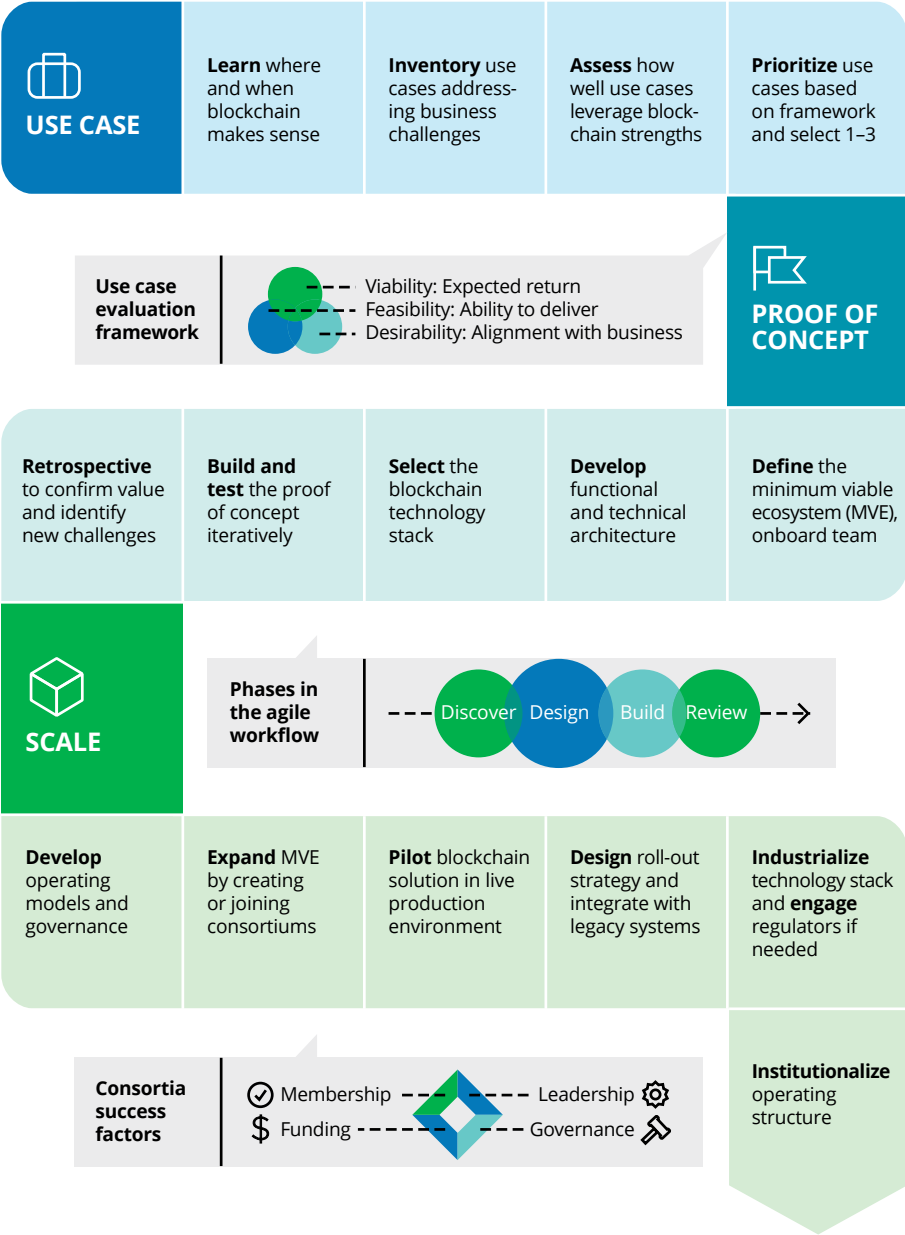

Global Blockchain Capability

Deloitte's blockchain team — comprised of more than 800 professionals across 20 countries — focuses on developing strategic blockchain capabilities and proofs of concept into functioning prototypes to create “ready-to-integrate” solutions for clients. Deloitte has developed more than 30 blockchain-related prototypes, covering a multitude of uses such as digital identity, digital banking, cross-border payments, trade finance and loyalty and rewards solutions, as well as distinct efforts for the investment management and insurance sectors.

Blockchain Implementation Roadmap

Blockchain technologies are on a clear path toward broad adoption, with proofs of concept shifting toward production and leading organizations exploring multiple concurrent use cases of increasing scope, scale, and complexity. Moreover, initial coin offerings and smart contracts are finding more applications and creating more diversity throughout the blockchain ecosystem. Now is the time for organizations to begin standardizing on the technology, talent, and platforms that will drive future blockchain initiatives.
