

# DELOITTE'S MAS UPGRADE ASSESSMENT

## WHY DELOITTE

Our marketplace success is evidenced through our industry accolades, analyst recognition and rich list of clients in various industries.

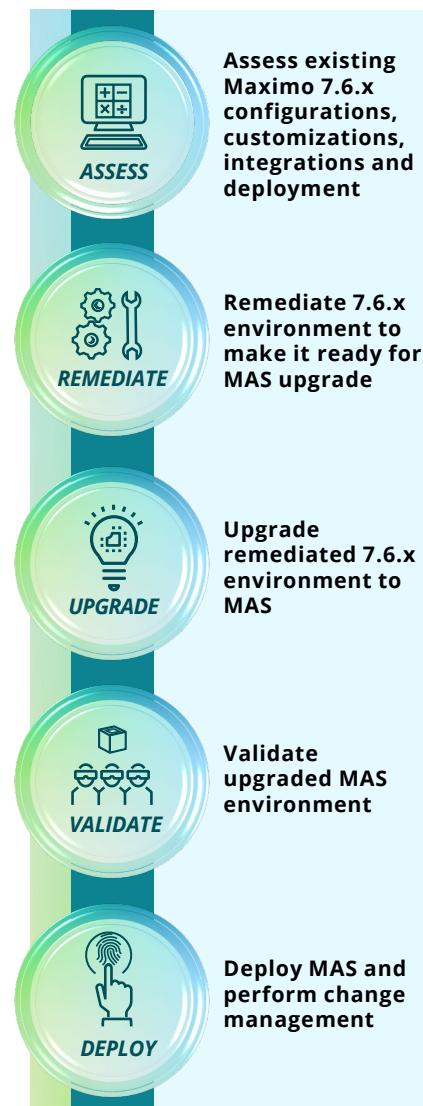

We have hand-picked a team of experts with experience in transformation, in-depth knowledge of process, data, reporting and technology.

We pride ourselves as a Maximo delivery partner that executes with distinction. Our laser focus on business outcomes, systemic project management approach and industry leading methodology to get stakeholders aligned will ensure your desired outcomes are achieved in a timely manner.

We are ready with our MAS team, accelerators, project plan, approach, sample deliverables and workshop schedule. We can hit the ground running on day 1.

## HOW CAN DELOITTE'S MAS UPGRADE ASSESSMENT BENEFIT YOUR ORGANIZATION?

Is your organization embarking or considering a MAS Upgrade journey, with a vision to migrate to cloud-based MAS and start utilizing the expanded MAS capabilities within your organization? We are passionate to ensure your vision is realized, stakeholders are aligned, upgrade process is seamless, and business value is achieved. Your strategic partner should bring relevant experience, be a leader in MAS Upgrades, EAM transformations, and most importantly collaborate with you to prioritize and sequence your desired outcomes, while staying COMMITTED TO YOUR SUCCESS.

## WHAT IS A MAS UPGRADE ASSESSMENT?

A "MAS Upgrade" assessment will help you identify key challenges and risks associated with a MAS upgrade, and help you prepare internally with people and technology resources. This assessment will help you strategize on future MAS deployment (on-premise vs cloud), MAS App Point conversion strategy, and develop a change management plan to migrate users to MAS. The MAS Upgrade Assessment will also help you in developing the required financial budget to successfully execute and support a MAS upgrade.

*At the conclusion of the assessment, we'll schedule a session to present the assessment report with detailed findings and recommendations.*

## DESIRED OUTCOMES AT THE END OF THE MAS UPGRADE ASSESSMENT

- Align on the strategic vision and guiding principles for the MAS upgrade
- Identify issues, risks and challenges with MAS Upgrade
- Recommendations for deployment options for hosting MAS
- Define App Point conversion plan and strategy
- Develop a change management plan for migration to MAS
