DELOITTE'S MAS UPGRADE ROADMAP

WHY DELOITTE

Our marketplace success is evidenced through our industry accolades, analyst recognition and rich list of clients in various industries.
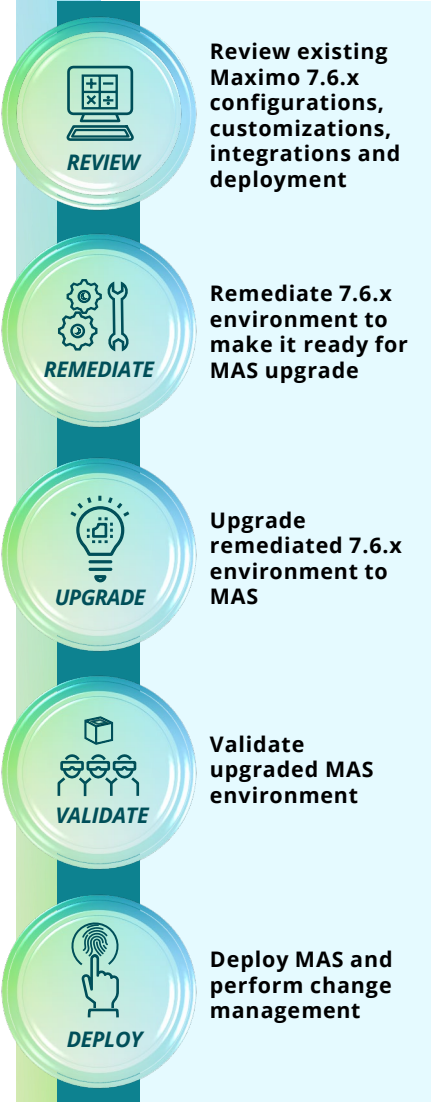

We have hand-picked a team of specialists with experience in transformation, in-depth knowledge of process, data, reporting and technology.

We pride ourselves as a Maximo delivery partner that executes with distinction. Our laser focus on business outcomes, systemic project management approach and industry leading methodology to get stakeholders aligned can help ensure your desired outcomes are achieved in a timely manner.

We are ready with our MAS team, accelerators, project plan, approach, sample deliverables and workshop schedule. We can hit the ground running on day 1.

REVIEW — Review existing Maximo 7.6.x configurations, customizations, integrations and deployment

REMEDIATE — Remediate 7.6.x environment to make it ready for MAS upgrade

UPGRADE — Upgrade remediated 7.6.x environment to MAS

VALIDATE — Validate upgraded MAS environment

DEPLOY — Deploy MAS and perform change management

HOW CAN DELOITTE'S MAS UPGRADE ROADMAP BENEFIT YOUR ORGANIZATION?

Is your organization embarking or considering a MAS Upgrade journey, with a vision to migrate to cloud-based MAS and start utilizing the expanded MAS capabilities within your organization? We are passionate to ensure your vision is realized, stakeholders are aligned, upgrade process is seamless, and business value is achieved. Your strategic partner should bring relevant experience, be a leader in MAS Upgrades, EAM transformations, and most importantly collaborate with you to prioritize and sequence your desired outcomes, **while staying committed to your success**.

WHAT IS A MAS UPGRADE ROADMAP?

A "MAS Upgrade" roadmap will help you identify key challenges and risks associated with a MAS upgrade, and help you prepare internally with people and technology resources. This roadmap will help you strategize on future MAS deployment (on-premise vs cloud), MAS App Point conversion strategy, and develop a change management plan to migrate users to MAS. The roadmap will also help you in developing the required financial budget to successfully execute and support a MAS upgrade.

At the conclusion of the roadmap, we'll schedule a session to present the detailed findings and recommendations.

DESIRED OUTCOMES FOR YOUR ORGANIZATION AT THE END OF THE MAS UPGRADE ROADMAP

- Align on the strategic vision and guiding principles for the MAS upgrade
- Identify issues, risks and challenges with MAS Upgrade
- Recommendations for deployment options for hosting MAS
- Define App Point conversion plan and strategy
- Develop a change management plan for migration to MAS
