

Deloitte AI Factory as a Service

ACCELERATED BY NVIDIA

Accelerate your AI journey with a fully managed, optimized, and purpose-built platform (whether on premises, colocation, cloud, or hybrid) with pre-integrated data management, LLM training, and inference services that can help your business go further and faster.

IMAGINE IF YOU COULD

Speed scaling of GPU capacity from weeks to just hours

Have a proven, pre-built and fully customizable AI technology stack

Achieve TCO and performance improvement by up to 50%¹

Enhance data privacy, security, and end-to-end protection

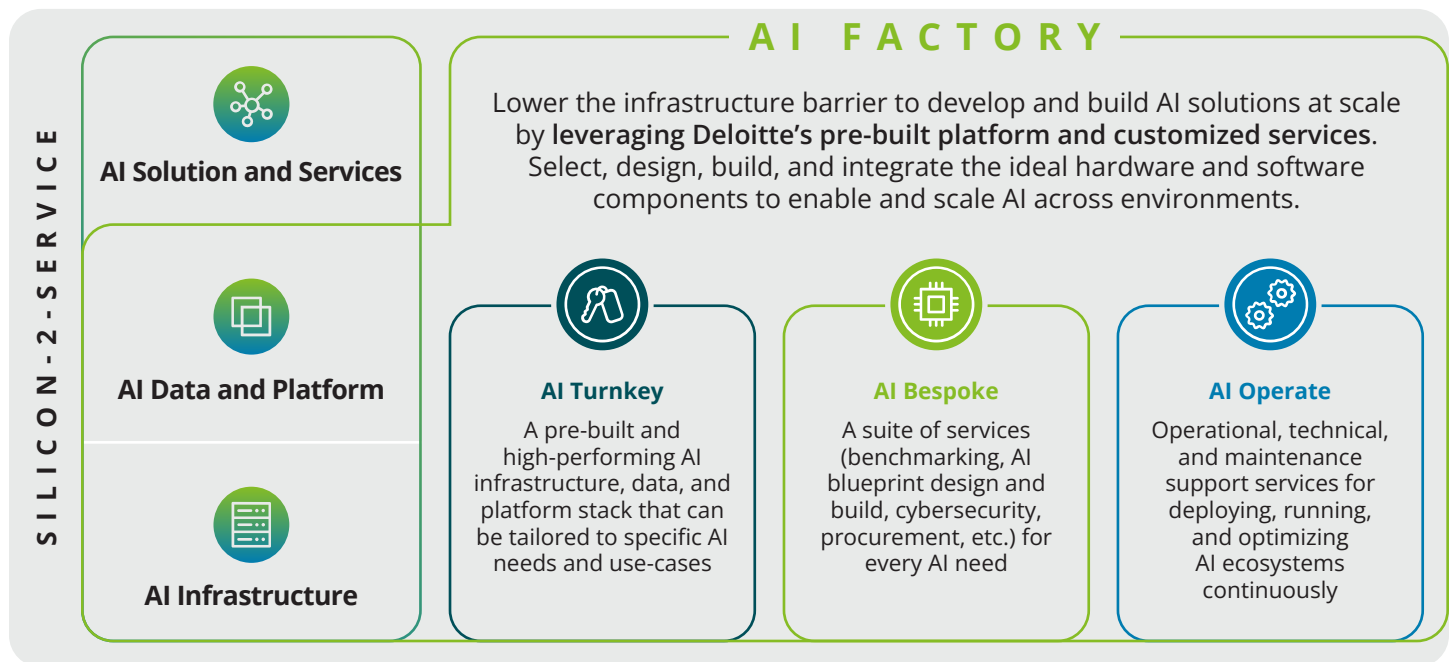

Get to market faster with access to leading vendors

Utilize readily available tools and accelerators to enable AI

Introducing Deloitte's Silicon-2-Service (S2S) AI Factory that can make it happen.

From concept to deployment, Deloitte's S2S offering offers a turnkey solution that speeds up AI adoption and execution. As part of S2S, AI Factory is your comprehensive AI accelerator, providing access to NVIDIA accelerated computing infrastructure, NVIDIA AI Enterprise Software, and built-in security, delivered with hard-to-source skills and deep industry experience.

READY TO UNLOCK YOUR AI POTENTIAL?

If you are looking to...

- Define GPU hosting strategy, design, and build
- Implement AI use-cases or scale and optimize AI
- Develop business case and TCO for AI implementation
- Jump start your AI journey or launch AI projects at scale
