

DELOITTE AND CISCO: **TRANSFORM. CONNECT. SECURE. SUCCEED.**

With the continued adoption of cloud technologies, modern engineering practices, and the demand for hybrid access, organizations face unprecedented complexity in managing and modernizing their IT infrastructure. There's increasing pressure to deliver seamless digital experiences, maintain robust security, and enable agile operations. As business models evolve and digital transformation accelerates, IT leaders are challenged to balance innovation with operational resilience and risk management, while keeping network infrastructure aligned to these needs.

In today's always-on digital landscape, Deloitte and Cisco help organizations accelerate growth through network and infrastructure modernization, enhanced security, and AI governance. Our integrated offerings help empower organizations to achieve their digital transformation goals by implementing secure, scalable networks—built to support today's needs and tomorrow's advanced AI use cases.

OUR INTEGRATED OFFERINGS

As a trusted advisor, Deloitte designs and implements tailored digital transformation solutions that enhance Cisco technology. We help maximize business value with offerings in:

1

NETWORK AND INFRASTRUCTURE

Digital transformation is only as good as the network it's on. Together with Cisco, Deloitte helps create AI-ready data centers for workloads across clouds, on-premises, and at the edge. Cisco's core networking technologies—switching, routing, wireless, and servers—build and empower IT infrastructure modernization. This helps organizations build networks, automate, modernize, and transform their infrastructure.

2

AI GOVERNANCE

As organizations adopt AI, they may face new risks such as model sprawl and increased exposure. Cisco's AI Defense solution is designed to inventory, monitor, and validate large language models to automate AI management and reduce risk, while Deloitte's Trustworthy AI Framework establishes governance for responsible AI use. Together, Cisco and Deloitte deliver a secure, scalable AI architecture that empowers organizations to innovate with confidence.

3

ADVANCED CYBERSECURITY SOLUTIONS

Transform cyber operations with Cisco's security platform and Deloitte's integrated offerings. Together, we deliver network security, identity and access management, secure access service edge, and threat intelligence. By embedding security and resilience directly into their network, we can empower organizations to proactively defend against evolving threats. Automated workflows also streamline threat prevention, detection, and response—helping drive a stronger security posture and digital resilience.

WHY WORK WITH US?

Transform your operations and accelerate growth with holistic solutions that combine Deloitte's strategic experience and Cisco's industry-leading technology.

Converged network and security solutions:

Leverage network architectures with embedded security and AI capabilities—delivering smarter, safer, and more resilient solutions through the combined strengths of Deloitte and Cisco.

End-to-end transformation:

From strategy to execution, we deliver holistic solutions that drive measurable business outcomes.

Industry-leading technology:

As one of the world's largest software companies, Cisco revolutionizes how organizations leverage data to connect and protect every aspect of their business as they help power and safeguard the AI revolution. Deloitte brings deep industry and transformation experience to implement and adapt Cisco's networking, security, cloud, and collaboration platforms.

Tailored to your industry:

Whether you're in healthcare, financial services, manufacturing, or beyond, our alliance delivers solutions designed for your unique challenges.

Accelerated value and ROI:

Achieve faster time to value and maximize ROI from technology investments through the combined power of Cisco's technology stack and Deloitte's transformation experience.

Future-proof, resilient operations:

Future-proof your organization with agile, scalable architecture, improving trust, resilience, and business continuity with integrated security, automation, and actionable insights.

READY TO TRANSFORM?

Let's build the future—together. Whether you're looking to modernize your infrastructure, secure your enterprise, or embrace hybrid work at scale, we can help you architect the future
