

Electronic Health Records (EHR) Migration Services

A quick overview

August 2026

Deloitte is an AWS premier consulting partner

Our alliance with AWS has accelerated outcomes and unlocked additional savings

Deloitte and AWS have a long standing alliance, working collaboratively to help clients achieve goals

EHR on AWS experience

- Implemented large-scale EHR migrations to AWS across complex healthcare environments
- Experience with design, architecture, business continuity, and testing for EHR migration to the cloud
- Accelerated ability to resolve issues with AWS

Speed to market

- Accelerated, automation-led migration pathways for EHR platforms to AWS
- Demonstrated, standardized migration planning, implementation, and operational processes

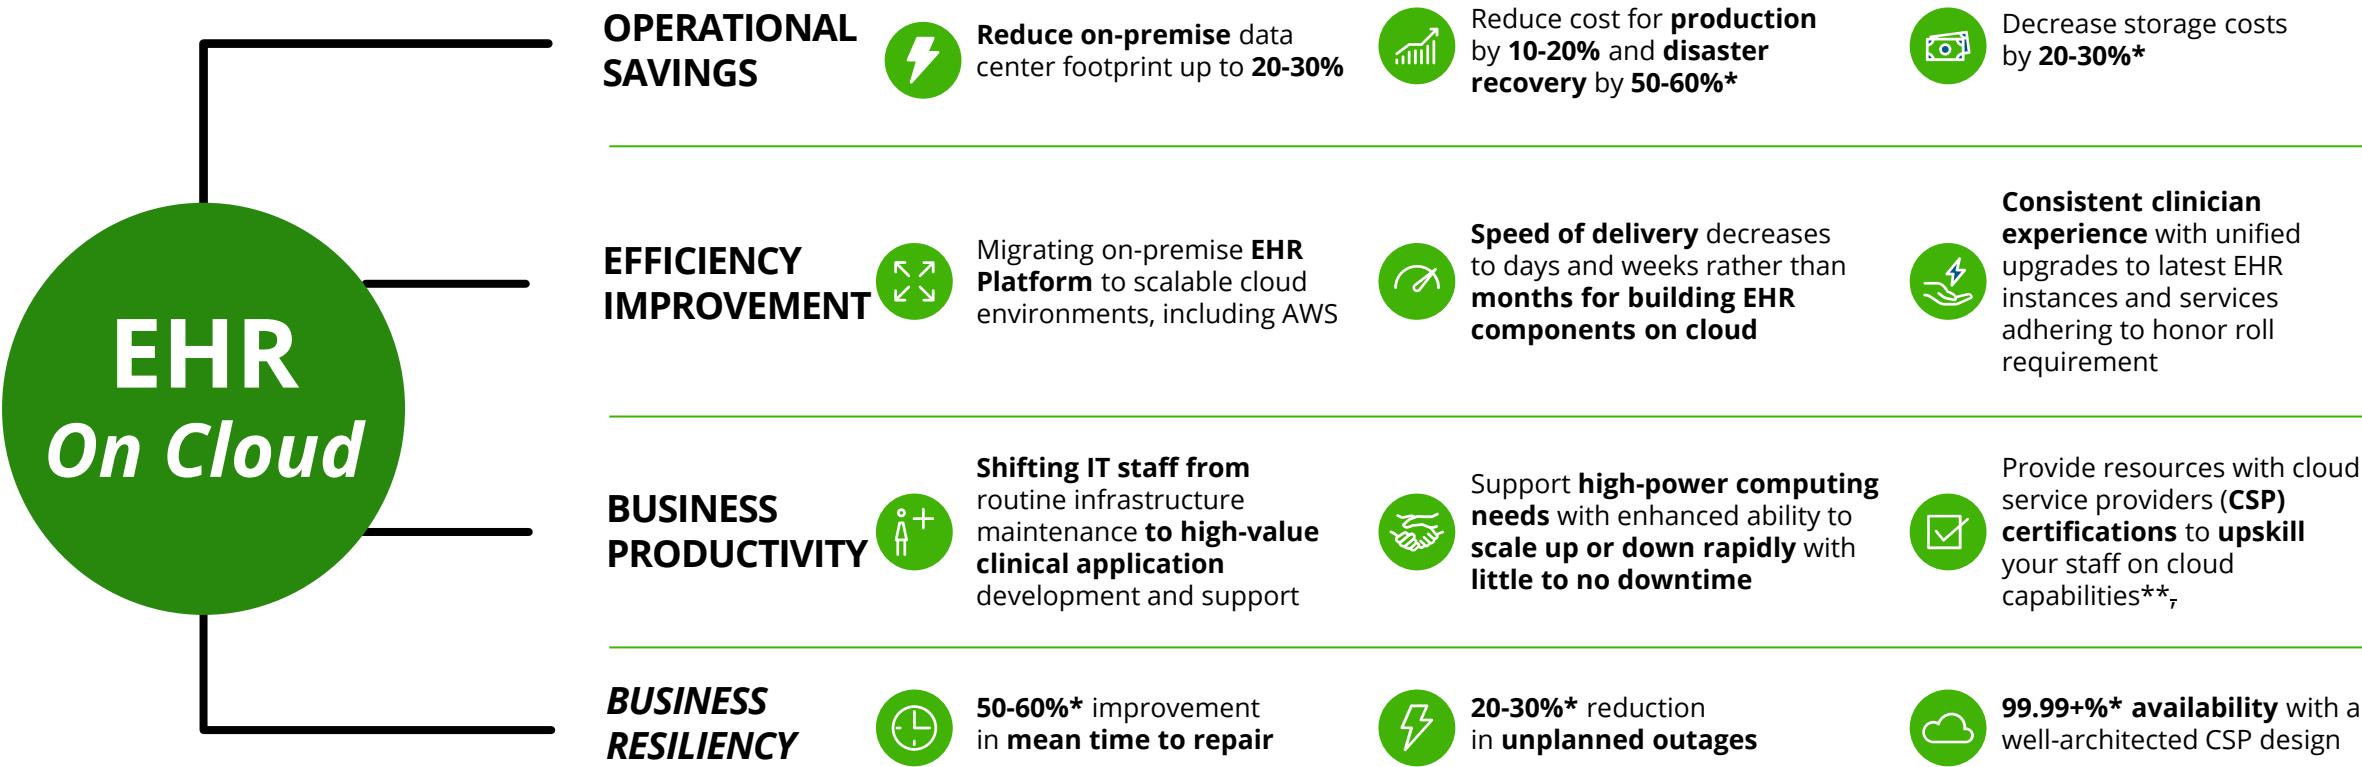

Efficient delivery with AWS

- Deloitte services and automation integrated with AWS
- Enhancing financial value through AWS investments and cost-efficient delivery

Deloitte Considerations for EHR Migrations to Cloud

Organizations can potentially realize value by hosting EHR in the cloud with clearly defined measurable goals that align with their strategic priorities

*** Certain services may not be available to attest clients under the rules and regulations of public accounting.

EHR Technology Service Catalog

Benefits to Clients

Strategic Alliance

Reduced Total Cost of Ownership (TCO)

Focus on Transformation

Higher End User Satisfaction

Improved Resiliency

EHR Migration Accelerator

The EHR Migration Accelerator is an AWS/Deloitte collaboration, prioritizing innovation over manual effort, enabling greater speed, consistency, and compliance.

Speed

Accelerates migration process

Automation and Scalability

Reduces manual migration tasks and frees up teams for higher-value work

AWS Migration

Facilitates migration to AWS

Adaptability

Accommodates varied environments

Compliance

Enables adherence to regulatory standards (e.g., Health Insurance Portability and Accountability Act (HIPAA))

The Migration Accelerator Tool typically yields a 17% – 25%* reduction in EHR migration timelines

*Actual yield may vary based on finalized workloads.
