

Deloitte and GSA Alliant 3 (A3) [47QTCB26D0007](#)

At Deloitte, we understand the importance and value of establishing a viable long-term strategic relationship with a demonstrated leader in the government IT community. No one can do it alone in this rapidly changing marketplace. A3 allows for long-term planning of large-scale program requirements. A3's contract scope is aligned with the Federal Enterprise Architecture (FEA) and Department of Defense Enterprise Architecture (DoDEA), which encompass various components of an integrated IT solution, including leading edge technologies.

With our flexible, collaborative and innovative approach, Deloitte's management solutions and enterprise integration services help clients cut costs and streamline operations while mitigating risk. And we have global reach, with Deloitte professionals spread throughout the United States and abroad we bring valuable experience and fresh perspective to all we do.

Deloitte's Government Public Services practice—

Our people

Our ideas

Our technology

Outcome

Deloitte's Government Public Services practice—our people, ideas, technology, and outcomes—are all designed for impact. We bring fresh perspective—from inside and outside government—to help solve our nation's biggest challenges. From cyber and IT modernization to big data and analytics, cloud, and leadership services, we bring insights from our client experience to drive bold and lasting results.

Federal agency security investments are at an all-time high, yet cyber-attacks are still on the rise, both in number and sophistication. While today's constantly evolving, fast-paced technology powers new strategic and mission initiatives, it also opens new doors for cyber criminals. Our Secure.Vigilant.Resilient. approach helps you manage the cyber risk you know and get ahead of the ones you don't.

As digital, cyber, cloud, and other disrupters drive change across business sectors and government, the need for modernization has never been clearer. IT modernization provides agencies opportunities to drive technology-enabled outcomes across the enterprise.

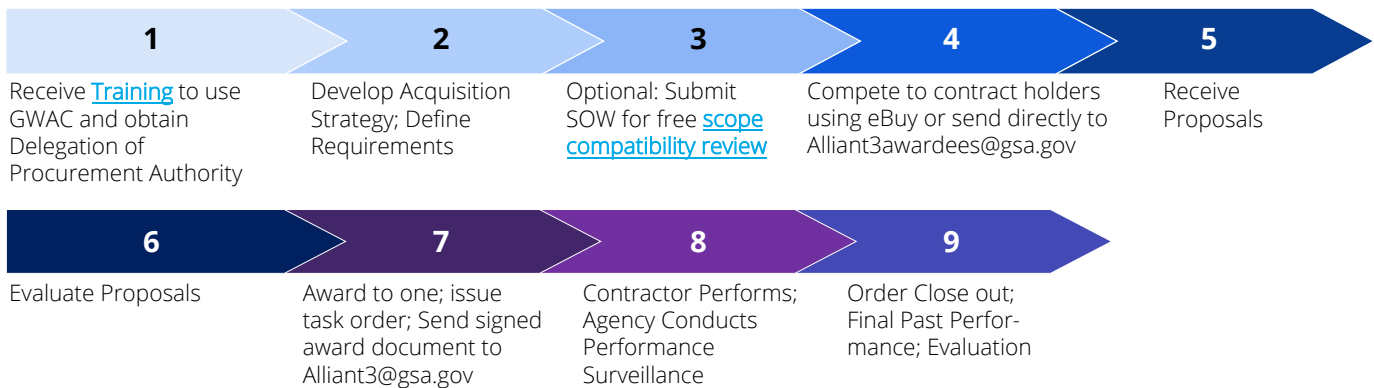

What you get out of cloud depends on what you put into it and how. Our comprehensive approach combines deep industry experience, operational know-how, leading-class technology, and a clear understanding of the risk environment to help you get the maximum results from your cloud investment today and stay at the forefront of things to come.

Alliant 3 is GSA's next-generation Governmentwide Acquisition Contract (GWAC) for information technology services. Structured as a multiple-award indefinite-delivery/indefinite-quantity (MA-IDIQ) vehicle, Alliant 3 enables federal agencies to quickly acquire complex, enterprise-wide IT solutions quickly, securely, and at scale. Alliant 3 builds on the proven legacy of the Alliant and Alliant 2 contracts by modernizing acquisition strategy, strengthening competition, and aligning federal IT procurement with current administration priorities focused on efficiency, accountability, and measurable mission outcomes.

-  Have requirements that contain multiple disciplines
-  Flexibility in contract type at task order level, including Cost Reimbursement, Firm Fixed Priced, Time and Material, and Labor Hour plus new IT service labor categories
-  Require easy access to IT services and quick-turnaround
-  Require an allowance for ancillary support services and Other Direct Costs at the task order level.
-  Customers given an option of using their own Procurement Office after receiving a Delegation of Procurement Authority (DPA) from GSA which gives the agency OCO the authority to administer task orders or experienced GSA Assisted Acquisition Services (AAS) in which GSA assists with the procurement process

Competitive Ordering Process for Customers:
