

# Deloitte CMS Service Catalog Overview — Foundational and Add-on Services

- Included in standard Cloud Managed Service engagements
- Foundational services can be deployed multiple ways

<sup>1</sup> Included with Fully Managed Service  
<sup>2</sup> Available with Fully Managed AWS, Azure, and GCP public cloud environments

- Add-on services can be included based on client requirements
- Flexible pricing based on consumption model, or solution based
- Compliance and risk require specific security guardrails and documentation to support controls
- Enhanced optimization typically done as workloads stabilize and execute continuously
