

Together makes progress

Workday Release Management as a Service

Enhance your Workday platform to unlock greater value

Effectively managing Workday releases is central to reducing operational risk and maximizing your investment. Our integrated technologies and deep Workday experience help empower organizations to overcome challenges and drive ongoing value from every update.

Workday release management

Workday feature releases are pivotal updates designed to deliver continuous improvements that help organizations maximize the value of their cloud investments.

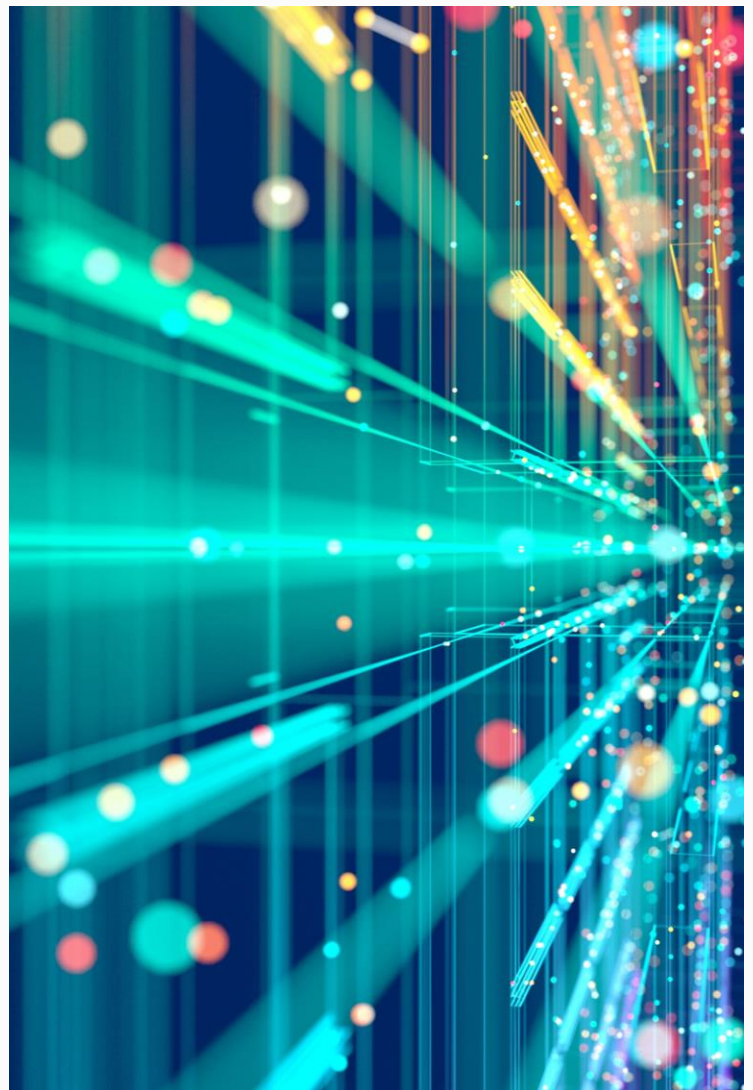

Twice each year, Workday introduces hundreds of mandatory and optional updates, including new features, bug fixes and enhancements across all modules.

With each Workday update, you have the opportunity to proactively assess how new features can benefit your unique environment and downstream systems. By staying informed and taking advantage of both mandatory and optional enhancements, you can fully leverage new functionalities, enhance your processes, and drive greater business value from every release.

Streamline success with SimplrOps

Deloitte's cloud-based solution SimplrOps identifies Workday release features that impact *your* environment to help you accelerate the prioritization, change management and adoption of key features.

Release Management as a Service

Our Release Management as a Service (RMaaS), powered by SimplrOps, helps you streamline and accelerate release management, reducing risk, saving time, and maximizing the value of each update. Our services include:

- **Installation:** Quickly deploy and enable SimplrOps' release management tool in your Workday preview tenant for immediate value.
- **Automated impact analysis:** Simplify review of Workday's "What's New Report" with detailed, automated reports that identify impacted configurations and consolidate new features tailored to your environment.
- **Recommendations:** Access actionable insights and recommendations developed by our Workday subject matter advisors, helping you prioritize enhancements, improve efficiency, and minimize risk.
- **Release forums:** Participate in Deloitte-led forums and access exclusive content to navigate semiannual Workday feature releases with confidence and clarity.

Additional services

For enhanced support, we offer add-on services from experienced, Workday-certified practitioners tailored to your business needs.

-  **Release planning:** Consult directly with Deloitte subject matter advisors to determine release related decision making.
-  **Configuration and feature uptake:** Prioritize, configure, and implement current and previously release features, according to business needs and impact analysis.
-  **Testing and test planning:** Thoroughly review and test new features using detailed configuration impact results.
