

Detect & Respond Portfolio

Advise. Implement. Transform. Operate. Innovate. Win vs the adversary. Security Outcomes

Advise & Implement

- Next-Generation SOC and XDR
- SOC Engineering & Automation
- Incident Response & Readiness
- Cyber Threat Hunting
- Insider Threat Programs
- Cyber Analytics Programs/Analytics as a Service
- Training (Master Operator, Hunter, Intelligence)
- Operational Technology (OT) SOC Strategy

Managed Extended Detection & Response (MXDR)

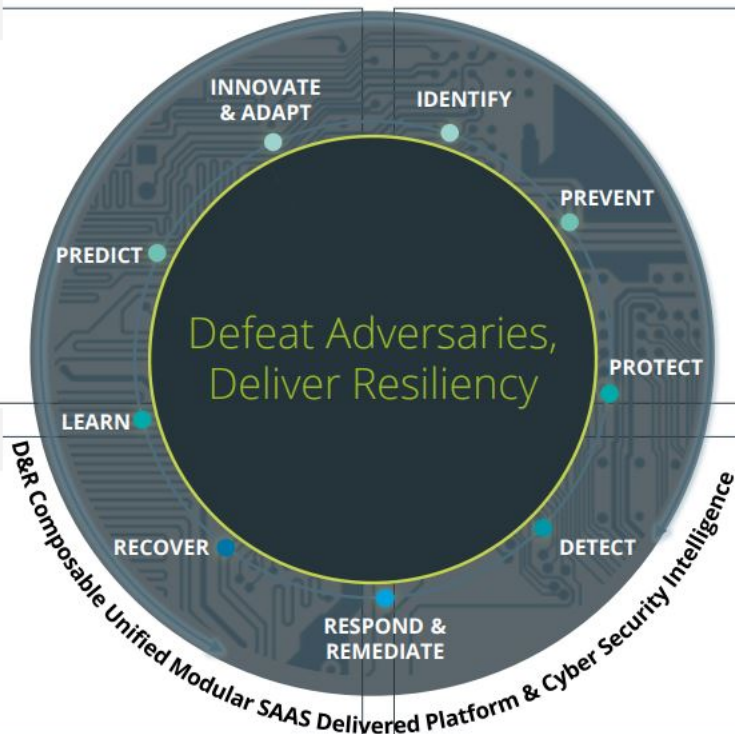

- MXDR SAAS Platform
- Extended Detection and Response (XDR) Log Analytics
- Digital Risk Protection
- Cyber Threat Intelligence
- Insider Threat Detection
- Adversary Pursuit: Proactive Hunting
- Cloud SaaS: Prevention, Detection and Response
- Cloud Security: Prevention, Detection and Response
- Identity Prevention, Detection and Response
- Enterprise Prevention, Detection and Response
- Attack Surface Management (ASM) & Vulnerability Management (VM)
- Incident Response (IR) – Contain & Recover
- Operational Technology Prevention, Detection, & Response

Cyber Intelligence & Products

- Cyber Security Intelligence (CSI) Advanced & Premium
- Dynamic Adversarial Intelligence (DAI)
- Digital Risk Protection (DRP)
- Threat Intelligence Program Development
- Next-Generation Hunt Platform
- Operational Intelligence

Managed Security Services

- Full spectrum of Managed Security Services maximizing client's cyber investments
- Threat Management (*Unified Event Monitoring*)
- Threat Hunting
- Attack Surface Management
- Incident Response – Contain & Recover
- Managed Security Information & Event Management (SIEM)

Strategically partnering with our clients to secure any digital assets important to them

Multi CLOUD (AWS, GCP, Azure, +), Containers, VMs, Serverless, Servers, VPCs, Laptops, Networks, OT, ICS, 5G, Strategic, Tactical, +
